

SIZE CHART

MEASUREMENT INSTRUCTIONS:

CHEST/BUST

With cloth or soft tape, measure circumference of chest approximately 1" below armpits and across breast bone. Make sure that tape is parallel to ground.

SLEEVE

Using soft tape, with the elbow slightly bent, measure from the center back of neck, over point of shoulder, around the elbow point and down to the wrist.

INSEAM

The inseam is the measurement from from your crotch to your ankle. Measure with a soft tape on the inside of your leg. Be sure to stand straight and relax while taking this measurement.

WAIST

With the tape level, measure the circumference at the waist's natural bend or where you prefer to wear your pants.

HEAD

This measurement is the total circumference of your head.

With tape level, measure the widest point of your head, approximately 1 inch above your eyebrows.

Please note that your helmet should fit snugly and not be able to move easily up and down or side to side when the chin strap is fastened. If this occurs, please try a smaller size.

BOOTS

If you typically wear a half size, please order the next size up, as our boots are only offered in whole sizes.

GLOVES

Your shoe size is proportionate to your glove size. If you wear a size 11 shoe, then a size 11 glove will likely be a good fit. If your hand is between measurements, choose the size that you feel will be most comfortable- if you prefer a loose fitting glove, order the next size larger, if you prefer a tighter fitting glove, order the smaller size.
